

Size&Me

- Knowledge of data structures, algorithms, and software design
- Experience with Unix and Linux command line tools and scripts
- 4+ years of experience with computer vision, deep learning and machine learning
- Deep understanding of math, statistics, probability, and machine learning models
- Extensive knowledge of computer vision (geometry, stereo, 3D reconstruction)
- Strong knowledge of Python programming language
- Experience in 3D rendering, camera calibration
- Experience with 3D imaging concepts , 3D visualization, 3D Deep Learning algorithms
- Demonstrated experience with OpenCV, TensorFlow, PyTorch, Pandas, Keras
- Cloud platform knowledge is a plus
- Background with cloud providers such as AWS, Google Cloud Platform is a plus
- Knowledge of WebGL is a plus

WHAT WE OFFER?

- 10.000-15.000 TL Monthly Salary
- Flexible Shift Hours
- Optional Remote Working
